July 19, 2004

Mr. B. Eugene Valentine
SBC 9-1-1 Public Safety
4918 W. 95th Street, Floor 2
Oak Lawn, IL 60453

Dear Mr. Valentine:

Enclosed please find the response of your letter from June 7, 2004 concerning the tariff associated with wireless 9-1-1.

Your estimated population of 94,182 is incorrect. Based upon a recent population review, the current population of our system is 98,871. My computations would indicate that the Phase I non-recurring portion to be \$4,752.00. The monthly fees would be \$470.40. Upon review if you find this to be incorrect, please advise me.

Sincerely,

William D. Shanley
Director

WDS/ddp
Attach.

Director William Shanley
Southwest Central Dispatch
7611 W. College Drive
Palos Heights IL 60463

William Shanley:

On Thursday, May 26, 2004 the Illinois Commerce Commission met to review the SBC-Illinois Wireless 9-1-1 Service proposal, and unanimously approved the tariff. As a result, the Wireless 9-1-1 Service tariff (included in SBC tariff Number 20, Part 8, Section 3) became effective on May 31, 2004

As we reviewed during the Wireless E9-1-1 Service workshops in April, Illinois Public Safety Agencies accepting wireless 9-1-1 calls will now be billed for this service based on the population of the area in which they provide E9-1-1 services. Billing will begin as of the effective date of the tariff, and in order to do so accurately, we must ensure we have your E9-1-1 system's most up-to-date population estimate.

We ask that you review your system's population numbers, based on the estimate provided by SBC 9-1-1 Public Safety in late April. We then ask that you complete and return the attached population confirmation letter by June 30, 2004. Estimates of County population can be found and compared to July 1, 2002, updated data by going to the National Census Bureau web page at:

<http://eire.census.gov/popest/data/counties/tables/CO-EST2002/CO-EST2002-01-17.php>

The population estimate we establish through this verification process will serve as the basis for Wireless 9-1-1 Service billing for the next five (5) years, and will remain unchanged during this interval. This provides significant stability that should simplify budgeting of these costs.

The rates, as approved by the ICC, are as follows:

One (1) Wireless 9-1-1 Service Billing Unit represents each 1000 in population for the area being served by the PSAP. Accordingly, the population in the relevant area will be divided by 1000 to determine the total number of Billing Units for the PSAP. Fractional Billing Units of .5 or more will be rounded to the next highest number. A minimum of one (1) Billing Unit will also apply to each rate element for each PSAP.

Illinois E9-1-1 systems accepting Wireless 9-1-1 Service calls will be charged:

1. \$4.80 per month, per Billing Unit, once an E9-1-1 system is equipped to receive wireless 9-1-1 calls at the Phase I level;
2. \$5.63 per month, per Billing Unit, once an E9-1-1 system is equipped to receive wireless 9-1-1 calls at the Phase II level;
3. \$39.96 per Billing Unit, as a one-time charge when an E9-1-1 system upgrades to take wireless 9-1-1 calls at the Phase I level (from not taking wireless 9-1-1 calls or from wireless 9-1-1 Phase 0 capability);
4. \$85.22 per Billing Unit, as a one-time charge when an E9-1-1 system upgrades to take wireless 9-1-1 calls at the Phase II level (from currently taking Phase I level wireless 9-1-1 traffic).

In certain situations, the population estimate quoted in the ICC 2003 status report was for system areas that did not match current system areas due to E9-1-1 system boundary changes and/or consolidations. We will be happy to discuss this with you further should you wish to do so. We thank you for using Wireless 9-1-1 Service from SBC, and look forward to receiving your reply by June 30, 2004.

Sincerely,

B. Eugene Valentine

B. Eugene Valentine, ENP
Director - E9-1-1 Operations
SBC 9-1-1 Public Safety

Attachment: Population Estimate confirmation letter

B. Eugene Valentine
SBC 9-1-1 Public Safety
4918 W. 95th Street, Floor 2,
Oak Lawn, IL 60453

Mr. Valentine:

This letter is provided, pursuant to the Wireless 9-1-1 Service portion of SBC Illinois Tariff #20, Part 8, Section 3, to certify that the SOUTHWEST CENTRAL E9-1-1 system taking Wireless Phase I / Phase II (circle highest wireless level in use) 9-1-1 calls as of May 31, 2004 through the SBC E9-1-1 Network currently serves a population of 98,871 for this purpose.

Our Wireless E9-1-1 system is responsible for taking calls from the following geographic area: List E9-1-1 County Name(s), Community Name(s), or combinations (or exceptions) thereof: Village of Burr Ridge, Chicago Ridge, Clarendon Hills, Lemont, Palos Park, Willowbrook, Worth; City of Palos Heights, Palos Hills

We understand that this information will be used to determine the amount of charges for Wireless E9-1-1 service provided to us in accordance with the SBC Illinois Wireless 9-1-1 Service tariff.

William D. Shanley
(signature)

Name: DIRECTOR WILLIAM D. SHANLEY

Title: SECRETARY, SOUTHWEST CENTRAL 9-1-1 SYSTEM

System Name: SOUTHWEST CENTRAL 9-1-1 SYSTEM

Address: 7611 W. College Drive, PALOS HEIGHTS, IL 60463-1008

Date: 7/19/04

ESTIMATED CHARGES for: Southwest Central ⁹⁸⁸⁷¹

Based on your current estimated population of: ~~94182~~, your system will be charged for 94 billing units. In addition, based on our records, you have NOT been billed for Wireless 9-1-1 services under the current SBC Wireless 9-1-1 tariff, and you will be billed the nonrecurring charges outlined in this tariff.

Note: These population figures are approximations based on the information contained in the 2003 Status Report maintained by the ICC, and population figures for your system will be determined to ensure accurate billing.

Upon request to SBC for Wireless 9-1-1 services (or for current SBC customers receiving SBC provided Wireless 9-1-1 services), you will be charged the following rates:

Phase I non-recurring portion: \$ ~~3662.24~~
Phase II non recurring portion: \$ 8010.68

\$4752.00 ON TIME

Note: for those customers previously billed under the interim Wireless 9-1-1 tariff, these amounts do not apply. Your system was billed: \$0 under the terms of the interim SBC Wireless 9-1-1 Tariff.

On a going forward basis, your system will be charged the following on a monthly basis:

Phase I monthly charge: \$~~451.20~~ \$470.40 — MONTHLY

Phase II incremental monthly charge: \$78.02

Phase II Total charge: \$529.22. This is a combined phase I + phase II total.

Our records show that your system is equipped to support phase I.

The ICC records indicate your system is authorized to receive Wireless 9-1-1 calls, and as such, these figures are applicable to your system, as we are authorized to deliver Wireless 9-1-1 traffic to your system.

In those instances where the ICC Status Report also lists a Wireless 9-1-1 surcharge revenue estimate for your system, we would also like to provide an estimate of the percentage that these charges (at the Phase II level) represent as a portion of your Wireless 9-1-1 surcharge revenue.

Based on reported Wireless 9-1-1 surcharge revenue of: \$0, the Phase II level recurring rates are only: 0 % of your surcharge revenue.

Please note that these are estimates only, and you should increase these values for appropriate taxes of, (but not limited to): A 7% Telecom Tax, a 0.1% additional state tax, and additional (locally set) municipal taxes and/or local state infrastructure taxes.
